

Don't drive doctors out of Medicare.

Act now to prevent seniors from losing access to their doctors.

Seniors have earned their Medicare and the security of knowing they have access to doctors they trust. Unfortunately many are at risk of losing their doctors if you fail to stop a nearly 30% pay cut before the end of the year. You have a responsibility to seniors to keep doctors in the Medicare program by providing them with a stable payment system and a responsibility to improve the system to promote high quality care.

Protect seniors' access to doctors now.
