### **BIPARTISAN GANG OF 6 CALLS FOR REPEAL OF THE SGR**

**(Washington, DC)** – The undersigned organizations, representing over 700,000 physicians, commend the Senate Bipartisan “Gang of 6” for recognizing that reform of the Medicare physician payment formula – specifically a full repeal of the sustainable growth rate formula – must be included in deficit reduction legislation. Failure to recognize the impact of the SGR on the long-term financial health of the Medicare program would be to ignore one of the most pressing financial and health care policy issues facing our nation.

We look forward to learning more details of the proposal in the coming days and continuing to work with the many members of Congress from both chambers and both parties who are committed to resolving this issue once and for all.
