

Opportunity for Public Comment on Draft Evidence Report: Screening for and Management of Chronic Kidney Disease

Through a partnership with the Effective Health Care Program, the U.S. Preventive Services Task Force is offering an opportunity for public comment on the evidence report on Screening for and Management of Chronic Kidney Disease. To provide comments, please go to <http://www.effectivehealthcare.ahrq.gov/index.cfm/research-available-for-comment/comment-draft-reports/?pageaction=displayDraftCommentForm&topicid=163&productID=641>. Comments will be accepted until April 6, 2011.

As the U.S. Preventive Services Task Force works to increase the transparency of its methods and processes, additional opportunities for public comment on key questions, evidence reports, and draft recommendations will be available at <http://www.uspreventiveservicestaskforce.org/>.
