

Effective Health Care Program Update: New CME Activities Are Now Available

The Agency for Healthcare Research and Quality has released two new CME/CE modules based on research findings from its Effective Health Care Program: *Comparative Effectiveness of Therapies for Reducing the Risk of Primary Breast Cancer: Guidance for Shared Decision Making* (<http://ce.effectivehealthcare.ahrq.gov/continuing-education/CER10/Comparative-Effectiveness-of-Therapies-for-Reducing-the-Risk-of-Primary-Breast-Cancer:-Guidance-for-Shared-Decision-Making>) and *Comparative Effectiveness of Therapies for Clinically Localized Prostate Cancer: Weighing the Options* (<http://ce.effectivehealthcare.ahrq.gov/continuing-education/CER11/Comparative-Effectiveness-of-Therapies-for-Clinically-Localized-Prostate-Cancer:-Weighing-the-Options>).

A full inventory of continuing education activities from the Effective Health Care Program can be found at <http://effectivehealthcare.ahrq.gov/cme-ce.cfm>.

Thank you,

Effective Health Care Program
