SUPPLEMENTARY INFORMATION:

On July 1, 2025, OSHA issued an NPRM proposing to clarify its interpretation of the OSH Act's General Duty Clause, 29, U.S.C. 654(a)(1), to exclude from enforcement known hazards that are inherent and inseparable from the core nature of a professional activity or performance. The public comment period for the NPRM was to close on September 2, 2025, 60 days after publication of the NPRM. In response to requests from stakeholders, OSHA is extending the public comment period for 60 days, until November 1, 2025. OSHA believes a 60-day extension is sufficient and appropriate in order to balance the agency's need for stakeholder input with the agency's desire to proceed with the rulemaking in a timely manner.

Additionally, in response to commenter requests, OSHA will hold an informal public hearing on this proposal. The agency will publish a separate notice at a future date to announce the details of the public hearing.
