AIHA[®] Signs MOU with IAQA

FALLS CHURCH, VA (August 10, 2012) — The American Industrial Hygiene Association[®] (AIHA) is proud to announce the signing of a memorandum of understanding (MOU) with the Indoor Air Quality Association (IAQA). The MOU establishes a working relationship between the two associations, allowing for knowledge sharing and issue collaboration.

Members of IAQA specialize in the assessment and/or mitigation of indoor environmental contamination, facilities management, and related interests. Members of AIHA specialize in the preservation of worker health and safety. These organizations will work together to address shared indoor air quality and environmental issues.

“This MOU allows two premiere professional associations to share information and increase communication about projects of mutual interest. We are proud to engage in the partnership, as this MOU provides strong support to both organizations,” Donald Weekes, CIH, CSP, member of the AIHA Indoor Environmental Quality (IEQ) Committee and President of IAQA, stated.

For more information about AIHA’s IEQ Committee, please visit <http://admin.aiha.org/insideaiha/volunteergroups/IEQ/Pages/default.aspx>.

Founded in 1939, the American Industrial Hygiene Association (AIHA) is the premier association of occupational and environmental health and safety professionals. AIHA’s 10,000 members play a crucial role on the front line of worker health and safety every day. Members represent a cross-section of industry, private business, labor, government and academia.
