

# Registration is now open: CPSC/NNI Workshop on Quantifying Exposure to Engineered Nanomaterials (QEEN) from Manufactured Products

**What:** A workshop sponsored by the Consumer Product Safety Commission (CPSC) and co-hosted by the National Nanotechnology Initiative (NNI) entitled “Quantifying Exposure to Engineered Nanomaterials from Manufactured Products – Addressing Environmental, Health, and Safety Implications.” This is a technical workshop to determine the state of the science and the tools and methods available to characterize and quantify exposure to engineered nanomaterials from consumer products.

**When:** Tuesday, July 7<sup>th</sup> and Wednesday, July 8<sup>th</sup>, 2015

**Where:** Holiday Inn, 1900 N. Fort Myer Drive, Arlington, VA 22209

**Who:** The intended audience includes academics, Federal representatives, and manufacturers and distributors of nanotechnology-enabled products, as well as communities seeking to understand the exposure science related to engineered nanomaterials.

**Why:** The U.S. Government regulatory agencies participating in the NNI have put forth a risk-based regulatory agenda regarding engineered nanomaterials. This risk-based approach requires exposure data, since risk is the combination of both hazard and exposure. A main goal of this approach is to bridge toxicology with exposure science.

**How:** This two-day, 100 – 120 person technical workshop will focus on determining the state of the science and the tools and methods available to characterize and quantify nanomaterials presence, release potential, and population exposure.

**Registration:** This workshop is free and open to the public. Registration is on a first-come, first-served basis and will be capped at 120 people. [Click here to register now.](#) If you cannot attend in person, the main sessions will be webcast live during the event. The webcast link and the agenda will also be available [via the main workshop page, linked here](#) and listed below. A limited number of travel grants are available for graduate students and postdoctoral associates; [please click here for more information and to download the travel grants flyer.](#)
