AHCA Statement on CMS Final ACO Rule

Washington, DC – The American Health Care Association (AHCA) issued the following statement today from Mark Parkinson, President & CEO, regarding the final rule on Accountable Care Organizations (ACOs) issued today by the Centers for Medicare & Medicaid Services (CMS):

“AHCA supports initiatives that create incentives for quality care and help contain health care costs. We certainly want to ensure skilled nursing and post-acute facilities are part of the cost-saving model. We’ll be examining the details of the final ACO rule in the coming days and weeks to ensure our sector can play an important role moving forward.”
